**When Shipping via a DHL International Shipment Paper Waybill**

**Check SHIPPER in Section 1.**

**Check SHIPPER in Section 6 under the Destination Duties/Taxes area.**

We will be using the ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label to integrate DHL services and products into WooCommerce. Support for DHL shipment insurance Support for all DHL Special Shipping Services. You can navigate to the plugin settings in two ways: Dashboard > WooCommerce > Settings > Shipping > DHL Express/DHL Paket/DHL eCommerce (or) Dashboard > Plugins > Installed Plugins > ELEX DHL Express/DHL Paket/WooCommerce Shipping with Print Label > DHL Express/DHL Paket/DHL eCommerce. Include VAT number: Enable this option to include VAT number in the commercial invoices. This information is used by the plugin to access DHL servers via API requests. In the Label & Tracking tab of the plugin settings, you will find the options under the Shipping Label section. The plugin lets you edit the dimensions of the box used as well as edit the DHL service being used to ship the order items. Integrating DHL tracking into WooCommerce for your customers. Apart from letting you print Archive Air Waybill and Commercial invoices, the plugin features: Live shipping rates from DHL Express, DHL Paket and DHL eCommerce. Configuring WooCommerce DHL Shipping Services and Products: After installing and activating the plugin, you will need to enter your DHL account details in the General Settings tab of the plugin. The ability to print DHL shipping labels as well as return labels directly from WooCommerce. Or you can test out some of the features for yourself by downloading the Free Version of the plugin. Display shipping Service Type: Enabling this setting will display shipping service type in the commercial invoices. Additionally, you can set a custom title for the DHL Shipping methods using the Method Config field as well as select the countries to which you wish to offer enabled DHL shipping services to. It comes with three options for this: Pack items individually: This is the default method. Packs every item in the order into its own box. To do this, you will first need to enable the Shipping Label checkbox from the Enable/Disable section found in the General Settings tab. Here, you can set a particular product to be shipped with a Special DHL service or enable Signature Required and Visual Check of age. Additionally, you can enable or disable DHL Insurance Checkout Field. Enable Live DHL Shipping Rates: Enabling Live DHL Shipping rates on your WooCommerce is one of the important features of this plugin. The ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label lets you print air waybills and commercial invoices from WooCommerce with ease. This will insure all the items in a customer's cart and the insurance amount will be the total value of the cart. The plugin also enables special fields for the purpose of shipping Special or Dangerous goods, in the WooCommerce product details page. When you create shipments and configure packages, you will be able to download the Archive Air Waybills for shipments from the Order details page in WooCommerce. DHL ensures complete security for your items while moving your goods across international borders. Moreover, you can pick the type of DHL box used to package the item. ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label. The ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label helps to seamlessly integrate DHL Express, DHL Paket and DHL eCommerce shipping services and products into WooCommerce. Ticking the Enable Insurance checkbox will then prompt you to configure the insurance for your store. Introduction: A DHL Archive Air Waybill is a shipping document that helps in services like ensuring package safety, customs clearance and works as a proof of consignment to track the shipment. Orders placed after the Cut-Off Time set in the plugin are automatically created and entered in the DHL databases on the next working day. If you have tax calculated for an order whose shipment is created, the tax will be included in the commercial invoice just next to the discount field. The process of generating Archive Air Waybills and Commercial Invoices from the DHL website is a time consuming one. There is a DHL Email Service section in the same tab which enables the automatic sending of DHL Tracking messages to Customers. This requires the Maximum Packing weight of the box to be entered. You need to provide the dimensions of the box that include the outer and inner height, length and width. Enabling Developer mode lets you access error logs in real time. Additionally, you can choose to request one or two documents. You will need to select the Insurance Currency, and set the Conversion Rate. The plugin features seamless integration of DHL services and products and lets you configure them for WooCommerce shipping. Enable Shipment Tracking: To enable DHL shipment tracking, navigate to the Label & Tracking tab of the plugin settings. Using them you can either increase or decrease the price of the enabled DHL shipping service by a flat amount or by a percentage. The conversion rate is used to convert the Insurance Currency to the store currency. Provide accurate and valid data and click on Save Changes. Additionally, you can configure the size of the generated shipping labels as well as the format of the files. Using the Name fields you can set a custom name for the DHL shipping services if you wish. Enabling the Show Cheapest Rates

Only check box configures the plugin to display one of the cheapest rates among the returned shipping rates for a particular shipment. These are as follows: Display Commercial Tax Details: Enable this setting to include WooCommerce tax details in the commercial invoices. You will need to create a Shipment first. Furthermore, you can customize the message being sent to your customers as well, using the Shipper Message field. Using the checkboxes next to the DHL service name fields you can enable or disable them on your WooCommerce store. The DHL servers will then return the Live shipping rates for all the WooCommerce DHL shipping services enabled. They offer efficient brokerage, clearance and compliance services geared towards making shipping items internationally painless. To generate Commercial Invoices for a particular DHL shipment, navigate to that specific order details page in WooCommerce. A Commercial Invoice is mandatory for all dutiable items being shipped using DHL services. Prerequisites: To print DHL archive waybills and commercial invoices for DHL shipments through your WooCommerce store, you will need to install and activate ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label. Setting Shipper Address: A crucial part of the integration process is providing the physical address of your store/warehouse from where you plan on shipping out orders using DHL services and products. You can enable DHL shipping services that you need from the Rates & Services tab of the plugin settings. This is necessary for all shipments using DHL Express services. So go through the article again and again until you think you have got it right. From DHL Express you can pick from over 20 shipping services to enable for your store. Real-time rates are one of the said DHL services that you can choose to enable or disable on your WooCommerce store. When this is enabled, the plugin lets you generate and print DHL shipping labels from the Order details page of WooCommerce. Here you can also set the plugin to function in either a Test mode or Live mode. You can access this information from your DHL account. Product Level Settings Entering the right data regarding the dimensions and weight of your products is important as this information is used not only in the creation of DHL shipments but also in the generation of DHL Air Waybills as well. Navigate to the Commercial Invoice section of the Label & Tracking tab of the plugin settings. Standard DHL Boxes, DHL flyers and an option for choosing our own box are available. Under the Label & Tracking section of the plugin, you can find the Archive Air Waybill section. In the General Settings tab, you can find the option to Enable or Disable DHL services. You can see the plugin in action on the Live Demo site. Here's the Documentation Page if you need more information about the plugin. Configure Shipping Services and Price Adjustments: The plugin features seamless integration of numerous DHL shipping options from not only DHL Express but DHL Paket and DHL eCommerce services as well. Intelligent box packaging algorithms for shipment creation Price Adjustment for DHL shipping services. After generating the Shipment you will find a button to download the Commercial Invoice for the order in the DHL Express window of the Order details page. Configure Parcel Packaging: ELEX DHL plugin even lets you configure how your parcels are packaged. Enable DHL Archive Air Waybills for WooCommerce Shipping: Enabling DHL Archive Air Waybills for WooCommerce shipping is extremely straight forward. Here you will various options with which you can enable and configure DHL Commercial Invoices. This is useful in creating promotional discounts or account for packaging and handling costs. DHL Archive Air Waybills and Commercial Invoices ensure that your packages get to your customers safely and in time. Additionally, you can also choose to include your Company Logo in the generated Shipping Labels as well as set a description of shipment contents. A sample Commercial Invoice generated using this plugin looks like this: Conclusion... As you saw, you can edit most of the information that appears on the waybills printed by ELEX WooCommerce DHL Shipping Plugin. Pack into boxes with weights and dimensions: This packages all items in an order based on the item weights and dimensions. In the Label & Tracking settings tab of the plugin, you can find the Shipping Content and Company Logo sections. A visual representation of tracking status can be seen in Order edit page by Admin and in Order's section of customer's My-Account page. Enable WooCommerce DHL Shipping Insurance: DHL has an international network of customs brokerage offices that not many international shipping carriers do. What's more, you can give the max weight of the box and set the package type as well. By ticking the Enable Real-time Rates checkbox, the plugin will access DHL servers for live shipping costs. The tracking information shows the current status of the shipment in transit. In this article, we will discuss the steps involved in printing DHL Airway Bills and Commercial invoices for WooCommerce DHL shipping. The plugin offers 10 supported dimensions for various shipping label printing needs. You need to specify the required VAT number in this setting. Enter the Account Number, Site ID and Site Password in their respective fields. In the Enable/Disable section you will also find checkboxes for enabling Shipping Labels, DHL shipment insurance as well as Developer Mode. A sample Waybill generated using the plugin is shown as follows: Enabling Commercial Invoices for DHL Shipments: To generate Commercial Invoices for DHL Shipments you will first need to enable them in the plugin settings. Moreover, the plugin lets you adjust the price of enabled DHL shipping services using the Price Adjustment Fields. Clicking on it will download the Commercial Invoice for the order in PDF format. You can set the Printing Size of the generated shipping labels using the Printing Size dropdown menu. The Test mode lets you try out the configurations and see if the shipment, label generation, and other DHL services are functioning error-free. When you enable the Show Delivery Time checkbox, it is important to set the Working Days and Cut-Off Time. Weight-based: Using this option you can set heavier items to packaged first, or lighter items to be packaged first or pack purely divided by weight. The Working Days enabled are used the estimated delivery date calculations. After enabling the DHL shipping services and configuring the generation and printing of DHL shipping labels, you can proceed to enable Archive Air Waybill. Setup Show/Hide DHL Services: ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label lets you enable or disable DHL services like Delivery Times, DHL Account Rates, Break Down Charges and Cheapest Rates Only. Using the Show Delivery Time option you can enable estimated delivery times for your customers. So it is crucial to make sure the dimensions are right in the WooCommerce product details page. When a customer, who is visiting your online store adds items to his or her cart, the plugin automatically sends an API request with the item details, origin and destination address. Here you can tick the Request Archive Air Waybill checkbox to enable them for your WooCommerce shipments. These rates are then shown to the customer under every applicable DHL service on the Cart page allowing them to choose the shipping service they want based on shipping cost. For setting the format of the generated shipping label files, you can choose between 3 formats: PDF Output, ZPL2 Output, and EPL2 Output. The ELEX WooCommerce DHL Express / eCommerce / Paket Shipping Plugin with Print Label lets you configure and generate these shipping documents from WooCommerce itself. You can find the option to enable or disable DHL insurance in the General Settings tab under the Enable/Disable section. The plugin also features an intuitive interface for configuring DHL Express, DHL Paket and DHL eCommerce services to your liking. After providing DHL Account Information and setting the plugin in either Live or Test mode, you can proceed to configure DHL services and products for WooCommerce shipping. In the General Settings tab, you can find the Shipper Address fields. The tracking number returned from DHL while generating the label would be added to order notes and will be sent as part of the order completion email. The Show DHL Account Rates lets you switch between DHL rates and contract rates while the Show Break Down Charges shows a breakdown of the DHL Shipping charges. Here you can find the Enable Tracking checkbox which enables DHL shipment tracking on WooCommerce. The plugin offers options to set the Printing Size as well the Format of the generated shipping labels. Generating bulk shipments. The plugin features support for enabling DHL shipping insurance for your packages. When an order is placed in your WooCommerce store, a DHL tracking pin is added to the order notes section of the order details page of orders that have the packages and shipments generated. Enable and Configure DHL Shipping Labels: The plugin features support for the creation and printing of DHL shipping labels right from WooCommerce.
