Simple Chocolate Ice Cream
 Makes about 2 cups (enough for 6-8 servings)

- 1/2 cup cocoa powder, sifted
- 1/2 cup granulated sugar
- 1/2 cup packed dark brown sugar
- pinch salt
- 1 cup whole milk
- 2 cups heavy cream

Ingredients pure vanilla extract

1. In a medium bowl, whisk together the cocoa, sugars and salt. Add the milk and, using a fork, stir in the cream or a whisk, beat to combine with the cocoa, sugar and salt. Chill the mixture in the heavy cream for 30 minutes. Cover and refrigerate 1 to 2 hours, or overnight.
2. Turn the Creamer's motor on and pour the mixture into the cream holder. Turn off the motor and stir the mixture about 15 to 20 minutes. The ice cream will have a soft, creamy texture. If a finer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 10 minutes before serving.
